DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9, 20-23, 37-47, 126-136, and 138-177 are allowed.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kolberg et al. (US Publication no. 2003/0097051), Bonner et al. (US Patent no. 5,902,331) and Kristiansen et al. (US Patent no. 5,107,856) all describe implantable stimulation lead pairs, wherein one lead of the pair is adapted to slidably move in relation to other. However, none of the references describe a method for implanting the lead into the epidural space of the patient by slidably engaging each lead with respect to one another using the complementary coupling mechanisms as described. Therefore the claims are allowable over the prior art of record.
